Dear Ed,

Just a quick note to thank you for your participation in helping to make our Sales Conference in Scottsdale, Arizona last week, the success that it was. We were very pleased with your presentation, and I know that it got a very good response from all participants. We achieved what I was aiming to achieve, which was to impress on our production people, sales people and sales brokers the opportunities that we have for growth within LINPAC; and the attitudes necessary for us to capitalize on these growth opportunities. Thank you for your presentation.

With kind regards

A. J. D. Heap
