Dear Ed:

I want to thank you for taking the extra time to customize your partnering message for our members. The time you took to pre-interview conference attendees and others involved in college auxiliary services shined through in your presentation. You knew our issues and addressed them well.

I realize your job was not an easy one with some of us wanting high-content, nuts and bolts and others, a light and fun evening. You achieved both! Everyone was served well. Your playful presentation style along with the ON-TARGET cartoons worked and the evening was a success. Thanks again for all your work in helping us to have a great 25th annual CACAS meeting.

Sincerely,

Richard M. Dyer
