Dear Ed,

On behalf of the California Physical Therapy Association, I want to express my appreciation for your recent presentation at our Annual Conference.

It was obvious that you spent an extensive amount of time researching the profession of physical therapy in order to customize your presentation for the members of our association.

Thank you for the experience, enthusiasm and humor you brought to a difficult subject. Your presentation was entertaining and eye opening for many in the audience.

Sincerely,

Felicia Price, CMP
Director of Meetings and Education
