November 7<sup>th</sup>, 2002

Dear Ed,

As I prepare for the Fall Meeting of the Casting Industry Suppliers Association, my thoughts went back to our last meeting in Galena IL.

It is remiss of me not to have written to you until now. I want to thank you for a timely and excellently presented topic. Your "Partnering for Progress" presentation left our members with fresh ideas on how their companies can benefit from Partnering with their employees, suppliers and even competitors.

There was just one complaint, if you can call it that. Our members thought that we did not give you enough time to cover the many facets of your ideas and avenues of thought. Perhaps we can do it again sometime.

Warm Personal Regards
